

THE Living Christ PROJECT

1

Open document to print. For the ideal print size, choose “Scale: 100%” instead of “Scale to fit”.

2

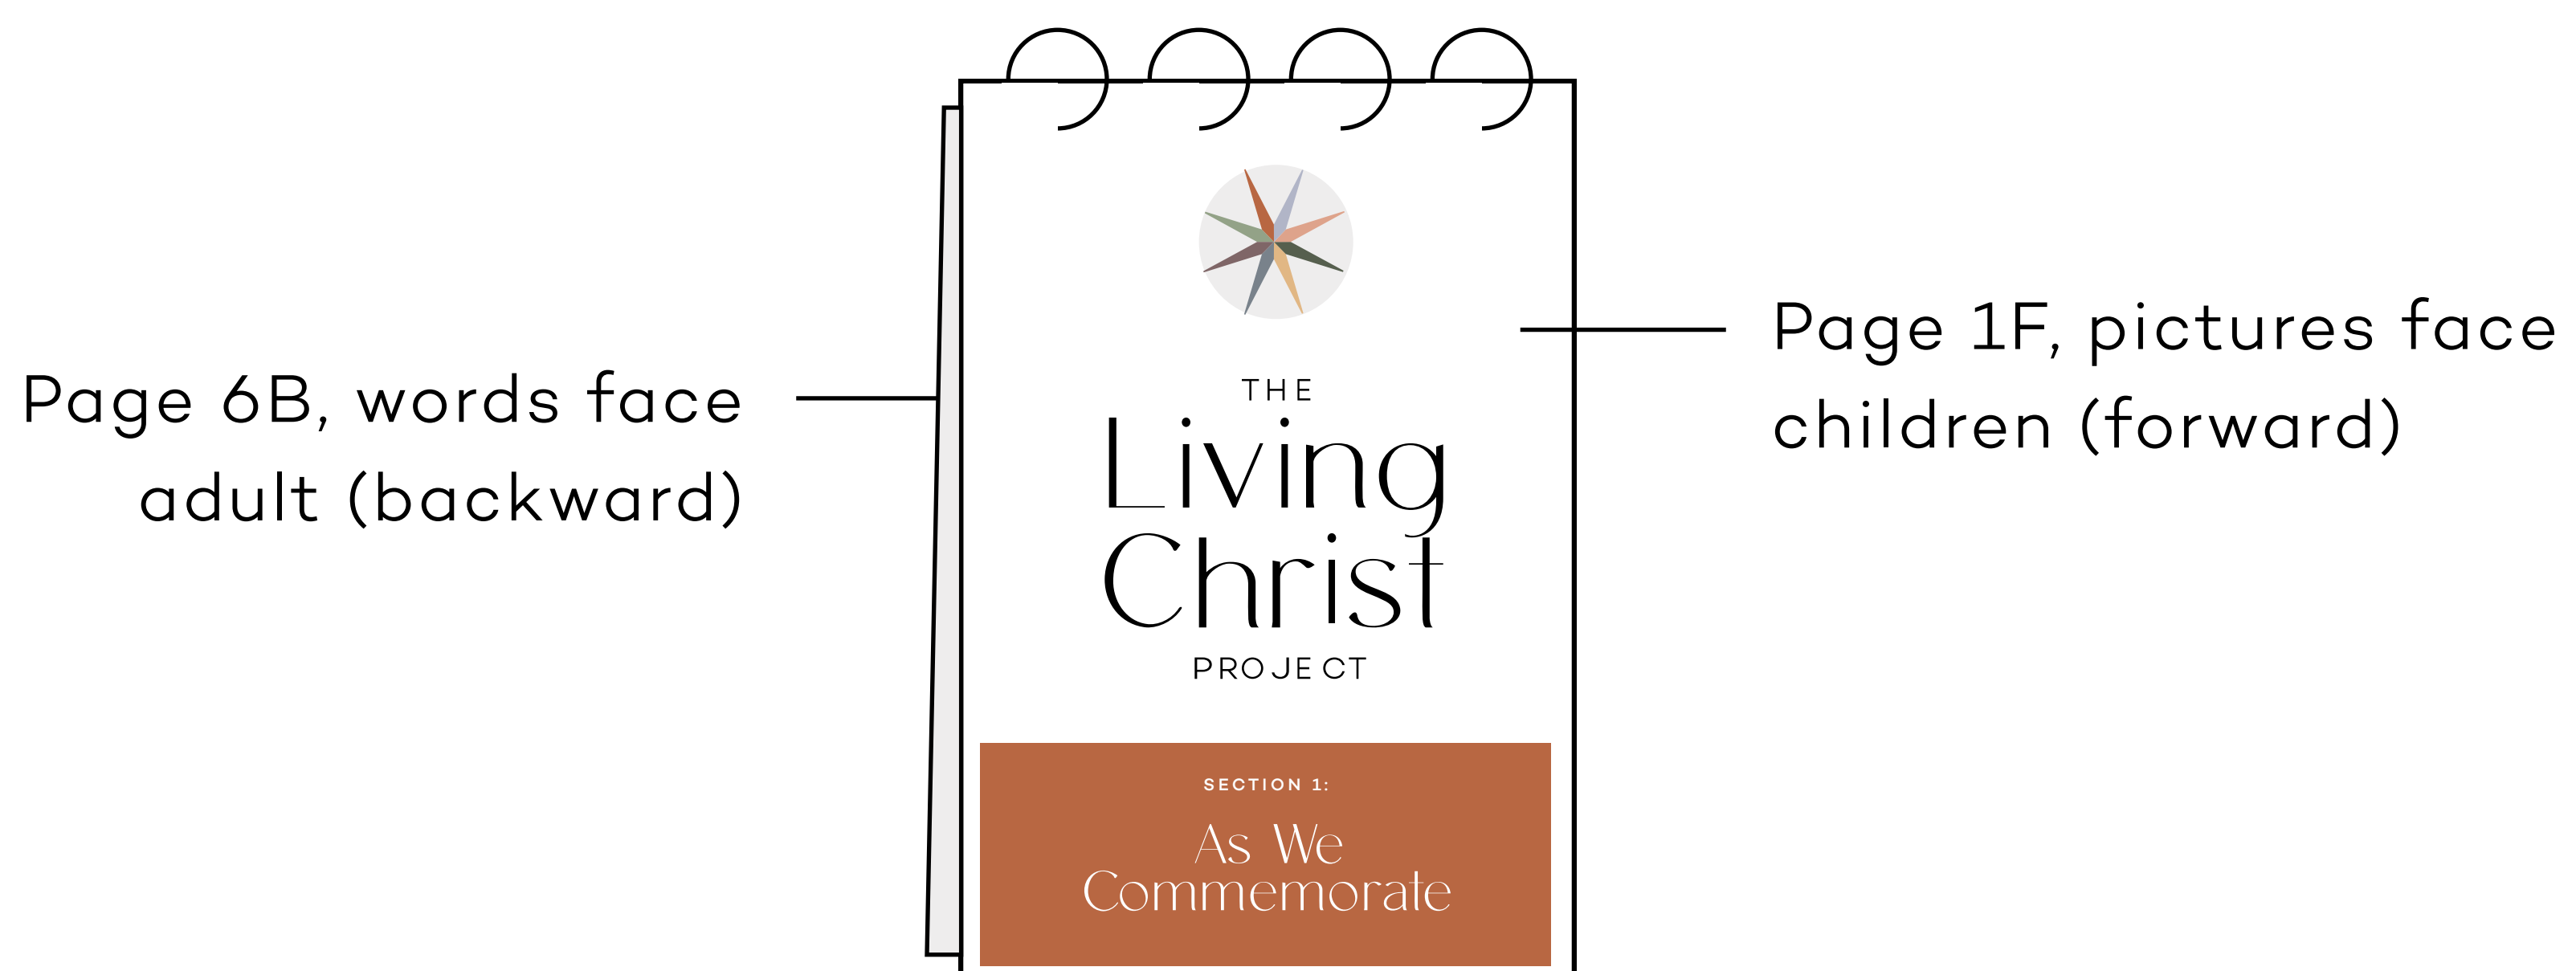

Print pages 1 & 2 two-sided, as well as pages 3 & 4. Make sure that mini page 1F (front) and mini page 1B (back) are printed back to back, as well as mini pages 2F/2B, 3F/3B, etc.

3

Cut out each mini page.

4

Place mini pages in numerical order with all ‘F’ pages facing forward and all ‘B’ pages facing backward. If pages are assembled in numerical order, the flipbook will have pictures facing forward for an audience and words facing backward for a leader.

4

Staple or insert binder rings along the top short edge so that the flipbook has a portrait shape.
